SUMMARY

B.Tech Electrical Engineering student with a strong foundation in Data Structures & Algorithms (DSA) and problem-solving using C++. Proficient in full-stack web development with the MERN stack (MongoDB, Express.js, React.js, Node.js) and JavaScript. Active competitive programmer across CodeChef, LeetCode, Codeforces, and AtCoder. Seeking a summer internship to apply strong analytical thinking and development skills to real-world engineering problems.

TECHNICAL SKILLS

Languages: C++, C, Python, JavaScript

Web Technologies: HTML, CSS, React.js, Node.js, Express.js

Databases: MongoDB, SQL

Tools & Platforms: Git, GitHub, Vs Code, npm

Core Competencies: Data Structures & Algorithms (DSA), Problem Solving, Full-Stack Web Development

SOFT SKILLS

Problem Solving, Adaptability, Communication, Leadership, Teamwork

EXPERIENCE

JP Morgan chase & co | Software Engineering Virtual Job Simulation - JUN 2026

- Engineered enterprise microservices within a simulated JPMorgan Chase environment using Java, Spring Boot, and Maven to handle high-profile financial operations.
- Integrated Apache Kafka messaging infrastructure into a Spring application to establish secure, high-speed asynchronous data streams for transaction processing.

Walmart | Advanced Software Engineering Job Simulation - JUL 2026

- Designed scalable software architecture using UML modeling and structured relational databases using SQL to meet rigorous business requirements.
- Utilized Python and SQL to ingest, preprocess, and structure large volumes of disparate data into functional database schemas.

PROJECTS

Personal Portfolio Website | [GitHub](#) | [Live](#)

- Designed and built a responsive personal portfolio site with an electrical-engineering-inspired visual theme, including PCB-style circuit motifs and a scroll-linked navigation rail.
- Developed About Me, Projects, Skills, and Contact sections, including a Skills section with category cards and animated proficiency progress bars.
- Implemented a dark mode toggle and interactive Framer Motion animations; centralized all site content into a single configuration file for easy maintenance and updates.
- Integrated GitHub for dynamic project display and deployed the site via GitHub Pages for public access.

HACKATHONS & OPEN-SOURCE CONTRIBUTIONS

Senior Coordinator | Students' Alumni Interaction Cell, NIT Durgapur — Jan 2026 – Present

- Enhancing leadership and communication skills and building a strong network between students and alumni.
- Member of the Web Development team, manage club official website.
- Member of the Graphics Designing Team, contributing to creative designs and visual content.

Senior Coordinator | Ampere – Electrical Engineering Society, NIT Durgapur — Mar 2026 – Present

- Train junior students in specialized electrical engineering software as a Core Computing team member.
- Member of the Graphics Designing Team, contributing to creative designs and visual content.

Smart India Hackathon (SIH) 2025 | Participant —

- Participated in Smart India Hackathon (SIH) 2025 hardware edition, collaborating in a team to design and prototype a solution for Disaster Response Drone for Remote Areas.
- Framework: ROS, TensorFlow, OpenCV, ArduPilot, Dronekit Hardware: Raspberrypi, LoRA

GirlScript Summer of Code (GSSoC) 2026 | Open-Source Contributor — Present

EDUCATION

B.Tech in Electrical Engineering | National Institute of Technology Durgapur — [2024 - 2028]

CGPA: 8.08 / 10.00

ACHIEVEMENTS

- JEE Main: 98.448 percentile
- Class XII: 82.6%
- Class X: 85.14%

COMPETITIVE PROGRAMMING PROFILES

[CodeChef](#): 3-Star, Rating 1627

[LeetCode](#): Rating 1614

[Codeforces](#): Pupil, Rating 1268

[AtCoder](#): Rating 539

LANGUAGES

English (Intermediate), Hindi (Expert), Bengali (Expert)
